Computer Guided Occlusion

Presented by Dr. Robert Kerstrin, DMD
Organized by Heat Consultancy Co., Ltd.

Speaker

Dr. Kerstein is a prosthodontist practicing in Boston, MA and a clinical Professor at Tufts University. He lectures nationally and internationally and continues to do research on Disclusion Time, Computerized Occlusal Analysis and Advanced Prosthetic Dentistry.

Dr. Wat qualified from The London Hospital Medical College Dental School in 1973. He currently is in private practice in HK. He is also an honorary associate professor with the Department of Oral Rehabilitation of The Prince Philip Dental Hospital, University of Hong Kong and is responsible for teaching Implant Prosthodontics to post-graduate dental students.

Upon course completion, participants will understand:

- Modern concepts of occlusion and guidance development
- The relationship of occlusal findings and musculature and patient symptoms
- How to record and adjust occlusal contacts
- Analyzing time vs. force measurements
- How to know what to adjust
